Features

Customizable Start Page Configuration

A wizard makes it easy to customize your start page and select the reports you want to see. For example, variable pie chart graphs and their table elements can display sales for your top 5, 10 or 20 customers, depending on what is most appropriate for your company.

Easy Access to Information

View your information within the Sage MAS 90 or 200 Desktop or access it directly with Internet Explorer.

Extensive Drill-Down Capabilities

You have the option to drill down into selected Sage MAS 90 or 200 reports and inquiries to display additional information.

Executive-Quality Presentation

The easy-to-read information display uses a combination of visually effective text and graphics in an attractive, contemporary design.

Automatic Data Refreshing

Data is automatically refreshed through a polling process that takes place in the background. This ensures the display of up-to-date information without having to take the time and effort to manually refresh data. You have the ability to refresh when launching Business Insights Dashboard, or you may specify a time value for automatic data refreshing.
