Sage 300 ERP 2012

Quickly access the information you need to improve productivity and make informed decisions.

- 1. Save time with easier navigation**—Customise your business processes to specific user roles with Sage Visual Process Flows.
- 2. Simplify everyday tasks**—Improve productivity with new enhancements throughout the system.
- 3. Improve productivity**—Enhance usability with easier-to-read tables, improved search tools, and better end-user documentation.
- 4. Get the information you need faster**—New inquiries for operations modules facilitate quick access to customised lists, which provide the answers you need and lower custom reporting costs.
- 5. Simplify update processes** using Sage Advisor Update.
- 6. Save time when processing payments**—Capture preauthorized payments during shipment entry or invoice entry, and invoice multiple preauthorised payments in a single batch.
- 7. Make informed decisions with comprehensive reporting tools**—Utilize the Sage Intelligence financial report designer and reporting tree capabilities.
- 8. Expand customised reporting capabilities**—Create the reports you need with the updated SAP® Crystal Reports runtime engine for .NET Framework 4 and new options in several standard reports.
- 9. Accelerate growth**—Stay connected with Sage CRM enhancements that improve information flow between the front and back offices.
- 10. Simplify your shipping process and reduce**

Sage 300 ERP 2014

Provide a better customer experience, increase your revenue, and grow with confidence.

- 1. Easily connect and expand your business**—Leverage mobile and cloud solutions.
- 2. Maximise return on investment**—Improve management of user licenses so you can free up counts as needed for high-priority business requests.
- 3. Check profitability at a glance**—Use the Profitability Dashboard for Sage Intelligence to see if customers, products, and salespeople are profitable.
- 4. Connect your sales team**—Track sales in the field using an iPhone app, Windows 8, and Sage CRM.
- 5. Reduce stock outs and excess inventory**—Optimize inventory and increase profitability with Sage Inventory Advisor.
- 6. Be more productive and map your daily tasks and processes from any application onto a single screen** using the enhanced Visual Process Flows.
- 7. Gain more control over your financial reporting** with Sage ERP Intelligence's new Report Designer.
- 8. Improve visibility** through enhanced integration between Sage 300 and Sage Inventory Advisor.
- 9. Enhance user experience** with support for MS Office 2013 32-Bit and improved Help and documentation.
- 10. Simplify advanced budgeting and forecasting** using the new Sage Enterprise Intelligence for Sage 300 ERP solution.

Sage 300 2016

Be more efficient and compliant.

- 1. Connect your entire business**—Sage 300 is integrated with the latest versions of Sage Intelligence (7.6) and Sage CRM (7.3), allowing you to improve effectiveness and make better decisions across your business.
- 2. Save time posting new records**—Post invoices, receipts, adjustments, refunds, and more directly from the entry screens for GL, AP, AR, and Bank Reconciliation instead of having to run an entire batch.
- 3. Improved Tax Tracking reports**—When printing the Tax Tracking report by fiscal period, you can now specify a range of fiscal year/periods to include on the report.
- 4. Save time when designing reports**—Automatically detect missing accounts from reports, exclude zero rows, and set dynamic ranges that detect any changes to the General Ledger.

Sage 300c

Get all of the 2016 enhancements, mobile access from any device, and a shortened learning curve with a new modernised user interface.

- 1. Enjoy mobile access to critical business information**—Support an increasingly mobile and dispersed workforce with anytime, anywhere, access to data and transactions. Available with any device that supports a browser including desktop, laptop, or tablet regardless of the operating system.

Includes mobile access to Sage 300 General Ledger, Accounts Receivable, Accounts Payable, Tax Services, Bank Services, Common Services and Administrative Services.

- 2. Shorten your learning curve and increase productivity with a new modernised user interface**—New modernised web screens are intuitive, easy to navigate, and enable employees to more easily multitask.
- 3. Keep tabs on critical information with new homepage**—With the new homepage, you can customise an anytime, anywhere dashboard specific to your business, with key performance indicators (KPI) accessible while in the office or away through any mobile device.
