

Important Service Information for Sage 300cloud and Sage X3

By agreeing to use **Sage 300cloud or Sage X3** business management solutions as part of a **unified package with Microsoft**, you hereby acknowledge and agree to the applicable Microsoft End User License Agreement (EULA) available [via this Link](#)

This means customers can only use SQL as part of a unified solution and in a dedicated, not a commercial hosting environment. If you are using SQL as part of a commercial hosting environment, please contact your Sage account manager.

To support you with this review process we have also provided a Compliance Workflow chart [via this link](#) that will enable you to check the status of your business.

If you have any questions or require further clarity, please contact your Sage account manager. Alternatively you can call Business Management support (02) 9921 6500.
