

Success Story

Ohio Transit Risk Pool streamlines HR with cloud software

User-friendly Sage HR gets the Ohio Transit Risk Pool to the right place

“Sage HR has enabled us to take our HR files out of Excel and into the cloud. We rely on Sage HR every day to see who is working and where, to upload and process expense receipts, and generally to streamline the entire HR process.”

Barbara Rhoades

CEO, Ohio Transit Risk Pool

The challenge

Using Excel to manage HR information on her eight team members was difficult. Barbara Rhoades, CEO at Ohio Transit Risk Pool (OTRP), needed a cloud platform that could manage and control her HR data.

The solution

With standard features – including HR analytics, on- and off-boarding, and custom reports – Sage HR had all the functionality that OTRP needed, and it supports 100+ employees, so will grow with the company.

The outcomes

Before implementing Sage HR, key staff documents were stored in multiple folders, making it time-consuming to track anything. Sage HR has helped increase efficiency and give staff peace of mind.

- Streamlines the review process, saving time.
- Provides insights and efficiencies on expenses and PTO.
- Increases for expense approvals.
- Implementation took fewer than six weeks.
