

Success Story

Sage Accounting proves it's not just a one trick pony

Dales Finance take advantage of Sage Accounting's horsepower, giving them a better understanding of their customers

"I wanted something that was relatively simple to use. Sage Accounting does the core things I need, I can manage my invoices, I can manage my payables, I can do everything myself."

Richard Holling

Owner at Dales Finance

The challenge

Dales Finance owner Richard Holling needed a complete accounting solution to take care of business expenses, cash flow analysis, raising invoices and process automation. Richard didn't want to pay hundreds of pounds a month for multiple pieces of different software.

The solution

Sage Accounting allows Richard to manage the business's finances himself, giving him complete control of incomings and outgoings, from any device, and reducing costs by 75% per annum when compared to separate software applications.

The outcomes

Using Sage's help pages and support videos, Richard was able to set up Payroll himself and link it to HMRC, so all of the submissions are now taken care of, giving Richard and his customers complete peace of mind.

- Ready to use, online, cloud-based accounting solution
- Payroll linked to HMRC, allowing for quick and secure submissions
- Simplified control of incomings and outgoings, from any device
- Reduced costs by 75% per annum
