

## Recommended Requirements

### Recommended hardware

- An IBM®-compatible computer with a 2GHz (or equivalent) processor
- At least 1GB RAM
- At least 1GB of free disk space after Microsoft® Windows has been installed
- Network users only: 1Gbps network cards and switches with Microsoft Windows networking
- Display Settings: An SVGA or higher resolution video card and monitor supported by Microsoft Windows running at 1024x768 pixels, with a minimum of 24-bit true colour

### Minimum hardware

- An IBM®-compatible computer with a 2GHz processor or higher
- 2Gb RAM
- 2Gb RAM of free disk space after Microsoft Windows has been installed
- Network users only: 1Gbps network with Microsoft Windows networking
- Display Settings: An SVGA or higher resolution video card and monitor supported by Microsoft Windows running at 1024x768 pixels, with a minimum of 24-bit true colour.

### Compatible operating systems

32 and 64bit variants of the following Windows operating systems:

- Microsoft Server 2008
- Windows Vista
- Windows 7
- Windows 8

### Technical notes

- Performance will be improved with higher specification computers and networks, and it only possible to install one copy on a single computer.
- Works with Microsoft Office 2000 and all later editions, and please ensure you have the latest Microsoft updates installed.
- This product will not install or run on the Microsoft Windows 95, Windows 98, Windows ME, or Windows NT4 operating systems.
- The latest service packs should be installed for your operating system before installing or upgrading Sage products. 32-bit Operating Systems recommended.
- Whilst there are no browser requirements for Sage P11D Professional, we recommend Microsoft Internet Explorer 6 or above for internet access to Sage Support and important Sage updates for your products.
- Sage 50 P11D Professional can only be installed on a single workstation.

### Apple Mac Compatibility

Sage software is not compatible with Apple Macs, unless you are running Windows XP, Windows Vista or Windows 7 via Apple's **Boot Camp utility**.
