Achieving complete and accurate small business accounting

Malaysian restaurant takes control of its finances with Sage Business Cloud Accounting.

Challenge

A restaurant with eleven employees, Barakah Cuisine Ventures was looking for a small business accounting solution that could help improve the efficiency and accuracy of its accounting.

Barakah Cuisine Ventures owner, Dr. Mohd Ariff Kasim, says the restaurant was facing multiple challenges with its existing accounting solution.

“Our accounting solution was very limited. It didn’t provide the features we needed to do our accounting efficiently and accurately.”

“We were not able to ensure the completeness of our accounting records. We used to have multiple errors, with some non-routine transactions not being recorded.”

“The solution was difficult for my restaurant manager to use. It only allowed the recording of transactions towards the end of the reporting period, which made his job very difficult.”

Sage Business Cloud Accounting

“Sage Business Cloud Accounting is a very easy-to-use solution. It’s allowed my restaurant manager to easily understand basic journal entries, even though he doesn’t have any formal accounting qualifications.”

Solution

To help solve these challenges, Barakah Cuisine Ventures chose Sage Business Cloud Accounting – a simple, yet powerful cloud accounting solution that enables small businesses to take full control of their finances.

The solution allows businesses to minimise time spent on manual business admin by automating processes. And it allows them to access the solution – and their business data – anywhere, at any time, from any web-connected device.

Results

Sage Business Cloud Accounting has helped Barakah Cuisine Ventures to significantly improve the accuracy of its accounting and streamline financial reporting, says Ariff.

“Sage Business Cloud Accounting is a very easy-to-use solution. It’s allowed my restaurant manager to easily understand basic journal entries, even though he doesn’t have any formal accounting qualifications.”

“We used to make multiple errors with our old accounting solution. Now with Sage Business Cloud Accounting, we can trust that our accounting is much more accurate.”

“My restaurant manager is now very happy because Sage Business Cloud Accounting has made recording transactions much easier and more efficient.”

“The solution allows him to record transactions daily, so he no longer has to rush and feel stressed by preparing all recordings at the end of the accounting period. As a result, we have significantly improved the accuracy and completeness of our financial data.”

“Using Sage Business Cloud Accounting is a great benefit to us as it provides the technology to compete with other businesses in terms of financial reporting.”

“We are looking forward to utilising the huge potential of the many other Sage Business Cloud Accounting features, such as the bank integration and reconciliation features, POS integration, and its ability to efficiently process recurring journal entries.”

“We used to make multiple errors with our old accounting solution. Now with Sage Business Cloud Accounting, we can trust that our accounting is much more accurate.”
