

Your complete tax compliance solution

Trying to keep up with all the demands of sales and use tax compliance can be hard, especially given how frequently tax rates and taxability rules change.

Powered by Avalara, the Sage Sales Tax suite of cloud-based tax solutions can help improve your tax compliance management.

Offload the complexity of tax compliance from end to end. Sage Sales Tax integrations are already built into the following systems:

- Sage 50cloud (U.S. edition)
- Sage 100
- Sage 500 ERP
- Sage BMS
- Sage Intacct

“We’re reducing our compliance risk at very little cost. If we tried to do this all manually, it would be too overwhelming for us to understand all the nuances of every state.”

Automated solutions to support you through the tax compliance journey.

Get licensed and registered

Get help acquiring licenses and securing registrations when you trigger sales tax obligations in new states or expand across borders.

Manage exempt sales

Establish a system that enables you to verify, store, update, and access tax documents on demand, reducing your risk of paying back taxes and penalties.

Calculate tax

Calculate sales and use tax and any specialty taxes such as VAT, GST, excise tax, lodging tax, communications tax, and more.

File returns

Maintain tax compliance where you file—account for unique filing schedules, deadlines, forms, and formats for sales tax, VAT, and GST reporting.
