

Sage Intacct and Continental Utility Solutions, Inc.

Empowering utilities integrated solutions designed to increase efficiency, financial clarity, and customer service capabilities.

Utilities face various operational challenges, from managing complex billing cycles and ensuring regulatory compliance to maintaining financial transparency and delivering excellent customer service. Sage has partnered with Continental Utility Solutions, Inc. (CUSI) to offer an integrated, best-in-class solution that empowers utilities to streamline operations, enhance financial visibility, and enable data-driven decision-making.

Best-in-class, cloud-based solution for utility billing and financial management

Combining CUSI's industry-leading utility billing and customer information system with powerful cloud financial management from Sage Intacct provides utilities with a superior alternative to all-in-one solutions. Bring together billing, customer, and financial data into a unified view to create a complete and accurate picture of your utility's operations. SOC 2 compliance and advanced security features safeguard sensitive customer and financial data to meet the highest regulatory standards in the utility sector.

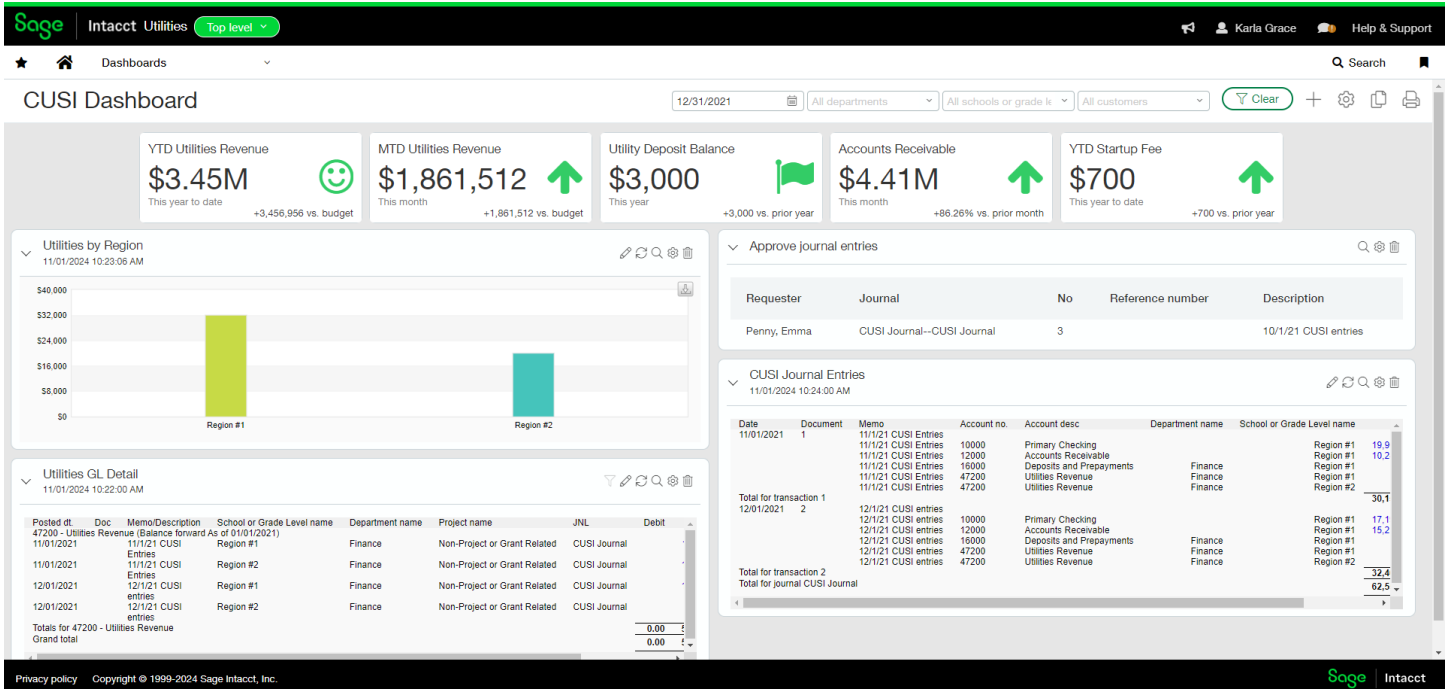

Streamline operations and enhance efficiency with automated workflows

Save time and reduce errors by automating the flow of customer billing and payment data to Sage Intacct, eliminating manual data entry and ensuring accurate financial records. Streamline reporting, simplify audits, and reduce closing time with accurate and up-to-date financial, customer, and utility usage records. Automate complex billing processes, built-in error reporting, and reporting to ensure accurate and timely billing while reducing staff workload.

Comprehensive oversight for data-driven decision-making

Ensure financial records are always current and gain real-time insights into cash flow, budget variances, accounts receivable, and operational efficiency to comprehensively understand your utility's financial status. This data-driven approach empowers leaders to make proactive, strategic decisions to support utility growth and economic health.

By connecting your financial data in Sage Intacct with your utility billing data in CUSI, you'll gain detailed key performance indicators on financial performance.
