

Sage + Procore

The foundation of every great company is trusted construction technology.

The #1 names in construction accounting and operations have come together to deliver a connected, cloud-native package with exclusive, limited-time pricing.

In partnership with
Sage **PROCORE**

Two leaders. One package. Zero compromise.

The Sage + Procore Package brings together the **#1 in construction accounting and the #1 in construction operations**—two proven leaders trusted by thousands of contractors worldwide. This isn't just connected software. It's the strongest foundation in construction technology, giving you the clarity, control, and confidence to build smarter and grow stronger.

And for a limited time, you can access this collective power with **special pricing and exclusive savings.**

What's included?

Sage

- Sage Intacct core financials featuring AP/AR, cash management, multi-entity support, and a dimensional general ledger
- Construction-specific job costing and compliance reporting
- Advanced reporting and customizable dashboards
- On-demand training and education resources

Procore

- Project execution, project financials, and quality and safety solutions
- Seamless Sage Intacct Connector for real-time field-to-finance data
- Optional Procore Pay for streamlined subcontractor payments

“Sage Intacct and Procore are the two primary horses that drive our business. Together, they’ve allowed us to get cost data to our project teams in real time, without roadblocks.”

— Julie Strong, CEO, C1S

Serious software for serious contractors

You don't take your job lightly, and neither do we. That's why we've built integrated financial and project management capabilities that connect budgets, costs, schedules, and field data in real time—giving you the control to keep every project on track.

Financial strength you can count on

- Boost productivity by up to 40% with the only AICPA-preferred construction accounting solution.
- Track every cost with precision—labor, materials, equipment, subcontracts, and more, all in one system.
- Gain real-time visibility into budgets and profitability to make smarter, faster decisions.
- Unlock flexible reporting with Sage's dimensional general ledger—track data by project, job type, location, and more.
- Replace tedious work in separate spreadsheets with the most powerful automated WIP management tool on the market.
- Easily handle complex operations including multi-entity accounting, intercompany transactions, and compliance.
- Improve cash flow by linking purchase orders, work orders, and time and materials with jobs to create accurate invoices.

Connected tools for confident project delivery

- Execute projects with precision using Procore's best-in-class field tools that keep schedules accurate and teams aligned.
- Elevate safety and compliance through integrated quality and safety workflows built for construction realities.
- Bridge field and finance with the Sage Intacct Connector, enabling seamless, real-time data sharing between teams.
- Give field teams real-time access to budgets, cost tracking, and job health with Procore Project Financials.
- Provide accurate, consistent project financial data to accounting teams, minimizing reconciliation efforts and supporting reliable audit trails for comprehensive financial health.
- Simplify payments and maintain cash flow through Procore Pay—automate lien waiver collection, transparent approvals, and faster disbursements built into the platform.

Join the thousands of construction companies who put their trust in Sage and Procore.
