

Discover the benefits of Sage 50

Designed to help you run your business. Sage 50 2026 U.S. Retail
Essential Edition delivers a full-featured desktop experience.

Sage

Here's what's included when you activate your exclusive Sage 50 account:

Pro includes these features:

- **Simple to start:** choose from a variety of charts of accounts.
- **Pay bills and invoices:** break down vendor and purchase tasks all in one view.
- **Improve cash flow:** track expenses and use job costing to calculate profitability.
- **Manage records:** input customer, vendor, product, and service records.
- **Track inventory:** make inventory adjustments, record reorders, and view item prices.
- **Create purchase orders:** drill down on purchase tasks, payments, and vendor credit memos.
- **Effortless reporting:** generate reports with detailed line items ready to be emailed or printed.
- **Discover more:** explore ready-to-use templated forms that can be edited to fit your business needs.
- **Business status:** view your company account balances, vendors to pay, and revenue YTD.

Premium includes all the features of Pro, plus:

- **Batch invoicing:** create the same invoice for multiple customers.
- **Calculate job cost:** use job costing by phase and cost type to calculate job profitability and make informed business decisions.
- **Monitor your business:** audit trails and advanced budgeting tools allow you to stay on top of your business performance and finances.

Sage Security Shield

An exclusive benefit of your Sage 50 subscription

Sage Security Shield is a security suite that empowers small and medium-sized businesses to quickly take control of their business identity protection. It offers both state-of-the-art cyber threat protection and internal fraud security—and it's included at no additional cost with your active Sage 50 subscription.

Get even more out of your Sage 50 Accounting:

Upgrade to cloud connected

Move away from the traditional desktop-only accounting solution with a hybrid solution on the desktop and cloud. Get additional features like automated bank feeds, AR automation, remote data access, and role-based security. Make the most out of your Sage 50 accounting.

E-file with Aatrix

Access 330+ federal and state forms directly from your Sage 50 product.

Data migration

Expert services are available if you are using legacy files.*

*Available for an additional fee.

What does it mean to be cloud connected?

Get the flexibility of the cloud and the reliability of desktop accounting software. Automate administrative tasks to save time and money.

Remote data access¹

Collaborate with your team.

Payroll

Enhance your Sage 50 by adding a payroll subscription.

Newest updates

Get the latest editions.

More solutions for your accounting needs:

Payment processing

Control and reduce back office work with internal and external payment sources in real-time.

AutoEntry

Automate manual data entry of invoices, bills, receipts, or statements.

Sage Sales Tax, powered by Avalara

Ensure your business is in compliance with the latest rules and rates for tax calculation.

Direct deposit

Eliminate lost paychecks and protect your business with our third-party integrations.

Premium support

Upgrade your current support plan to schedule call backs.

Additional users

Boost your plan with additional users² and set user-role access so each person gets the view they need.

Want to upgrade? Give us a call at **800-626-8634**. Additional fees apply.

¹Additional fees may apply when purchasing a multi-user license. Multiple users accessing Remote Data Access at once may affect the software's performance.

²Changes to the number of users after your initial purchase will require an upgrade to a cloud-connected version.

Important note: Sage 50 Accounting products are not backwards compatible and attempting to downgrade your product will result in data loss. Enhanced features are not available in all product models.
