# Save time. Take control. Take action.

“Sage Intelligence saves me time, helps my clients make informed business decisions, quicker, and it helps me provide a more professional service.”

- Jona Blecher, The Outsource CFO

We understand that within your business, you may be the business owner, the buyer, the seller, the finance manager and the worker all wrapped up into one super hero. You may not have the time to create and customise reports, or try figure them out to help you understand how your business is doing. Which is why you need a reporting solution that's quick and easy to access, and that gives you impactful insights on the go.

With Sage Intelligence for Accounting, you'll be empowered to save time and take control of your business with ready-to-use standard reports and dashboards that come pre-built and filled with your data. You're then also able to further customise or drill-down into your information to suit your needs and to help you make even better decisions.

**Save time.** View and analyse information quickly with a suite of powerful, pre-built reports and dashboards.

**Take control.** Take control of your business data with financial reports that you're able to tweak and edit to suit your needs.

**Take action.** Get a bird's eye view of your business with the ability to easily drill-down into the details and get the insight you need to make better decisions.

## Key Features

**1. Get instant access to online financial reports that are easy to customise and drill down into.**

With our ready-to-use, online financial reports, you'll get an easy, instant view of business-critical financial information on the go. You'll also get the option to efficiently create or customise these reports to suit your business needs.

**2. Get a visual overview of your key numbers or drill down into the details with dashboards.**

Our ready-to-use dashboards give you the edge by providing a visual representation of your business-critical financial information. Better still, you're also able to drill-down into these dashboards to gain even more understanding into what's going on in your business.

**3. Download your reports to Excel while retaining the formula and format as it was online.**

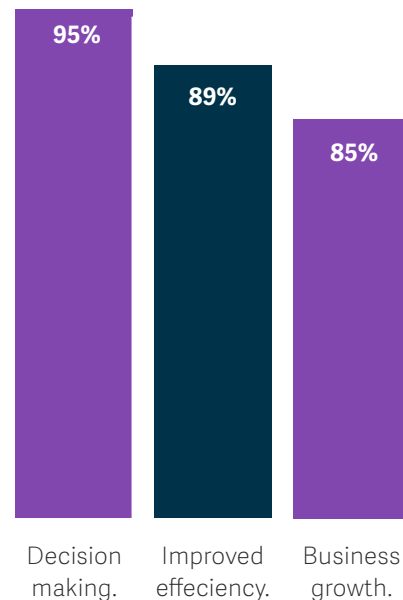

By downloading your online reports into Excel, you'll be able to edit and customise them further using a tool you're already familiar with. Better still, your reports will retain their formulas and formatting and are always up-to-date.

**4. Get drill-down functionality on online reports, Excel reports and interactive dashboards.**

Gain deeper insight into your business performance by drilling down into the important numbers and gaining access to the details. With this drill down functionality, you'll better understand more about how your business is doing at a granular level.

1 in 4

**Small business owners agree that creating reports to see how the business is doing is one of their top pain points.**

**Why Sage Intelligence?**

**Better decision making, improved efficiency and business growth are the top three reasons business owners use business intelligence.**

Sage Intelligence perfectly complements the reports that come standard with your Accounting solution to help you achieve more in your business.

Over and above the advantages that you get from the standard reporting available in Accounting, Sage Intelligence provides you with dashboards that give you a better look into the health of your business, an easy way to customise and create financial reports from scratch and to dig a little deeper into the numbers behind your business with easy drill-down functionality.
