Factsheet

Sage Business Cloud Payroll Professional

Sage Business Cloud Payroll Professional is our first multi-tenant, true cloud solution for medium businesses in Africa that is easy to use, 100% legislatively compliant and secure.

With anytime, anywhere access and less administration, customers can streamline key payroll processes and gain insights into their workforce for better decision making.

Sage

The solution offers a wealth of modern Payroll functionality that enables growing businesses to manage and pay their employees accurately and on time, over a secure and reliable platform.

What's the value for customers?

1. True Cloud Payroll allows you to work from wherever you are.
2. Reliable, stable and easy-to-use, backed by years of payroll experience
3. Peace of mind knowing their solution is always up-to-date with the latest legislation and legal reporting
4. Simplified Migration Process – user-friendly process from existing desktop system making it easy to move your data to the cloud and a familiar user interface
5. Available across multiple locations within Southern Africa and the wider African continent
6. Allows regions to extend needed services beyond standard compliance and local regulatory offerings

Sage

Core Features

Payroll on the go: Multi-tenant, true Cloud payroll software with automatic updates, means payroll processes are kept consistently up-to-date and compliant. Always available, always secure.

Payroll
All elements related to the accurate and on time payment of salaries and wages.

Statutory
Compliant with the latest legislation, extending our native cloud footprint across an ever-growing number of African countries.

Leave
Caters for 6 leave types. Keeping track of balances and accruals.

### Standard Reports and Report Writer
Reports can be viewed on screen, printed, a pdf version can be downloaded or an Ascii file with data can be generated.

Core Features

- General Ledger: Benefits customer by saving them time when balancing salaries and allows customers to reconcile all costs according to account codes and cost centres.
- Leave Management: Alleviates the burden of processing leave. Manage leave administration and enforce company specific leave policies, while integrating fully with existing payroll fields to eliminate double entries.
- Personnel History: Provides a single source of truth, accurate employee information and a host of key functionalities like; interviews, training, qualifications, remuneration and more.
- Employee Skills: helps customers manage all the employee aspects of skills development, from monitoring planned and attended training, to direct and indirect training costs.
- Employee Equity: An easy to use functionality to help with EE requirements. It provides customers with fundamental guidelines on all aspects of Employment Equity (South Africa, Namibia).
- Self-Service: Paperless process for managers and employees in managing leave, claims and maintaining personal information.
- InfoSlips: Allows employees to view their payslips electronically, providing access to view their earnings, deductions and company contributions, while tracking the status of their annual leave.
- Job Costing: Allows customers to allocate any labour related costs to projects by different departments or business units.
- Netcash: On-time payment solution for their business, ensuring that all employees get paid on time, every time!
