Feature and enhancement	Description	Sage Timeslips Premium	Sage Timeslips 2018	Sage Timeslips 2017	Sage Timeslips 2016	Sage Timeslips 2015	Sage Timeslips 2014
Bill reminders	For those clients that require a specific billing schedule, Sage Timeslips bill reminders provides the means for accurate and timely billing. Set the frequency for billing individual clients and Sage Timeslips will remind and filter your bill run accordingly.	●					
Company logo watermarks	Company logos and graphics can be watermarked on all reports. The firm can control placement, color and opacity to create an even more professional invoices or reports while promoting its brand.	●					
E-mail address visible on pre-bill worksheet	Enhancement enables client email addresses to be included on the pre-bill worksheet.	●	●				
Report list: All reports tab	A new tab lists all available reports in Sage Timeslips. From this tab, users can text search for desired reports and report types.	●	●				
Option to page break before consolidated summary	You can further customize consolidated bills by electing to page break when including the timekeeper summary.	●	●				
Show consolidated bills separately when reprinting bills	You can now separate consolidated bills into individual invoices when displaying the reprint bills list.	●	●				

sage Timeslips

Feature and enhancement	Description	Sage Timeslips Premium	Sage Timeslips 2018	Sage Timeslips 2017	Sage Timeslips 2016	Sage Timeslips 2015	Sage Timeslips 2014
Redesigned accounts receivable entry/list	Accounts receivable entry/list now displays more vital data eliminating the need to search and run reports to obtain. The new entry window has been reconfigured to provide easy to read and research billing processes.	●	●	●			
Redesigned budgets	Sage Timeslips budgets have taken on a new look and feel. Establishing client specific budgets can be done quickly and easily. This redesign provides simplified setup and management. Calculating budgets is now several times faster and can be quickly duplicated for multiple client use.	●	●	●			
Redesigned billing assistant	The redesigned billing assistant provides an updated list view of all or select clients for fast and accurate verification of data for quick invoicing. The improved layout of the billing assistant gives a true “at a glance” view of all billing details. Speed and performance of the billing assistant and functionality is improved also.	●	●	●			
Firebird database (SQL)	New SQL like database platform that will improve overall performance and speed (in some cases 5X faster than prior Sage Timeslips applications), especially in networked environments with a large number of users. Database will also be more resilient to corruption due to network transmission outages or latency.	●	●	●			
Redesigned client information	The client information dialog box has been redesigned so that related fields and options are grouped better, navigation controls are more consistent throughout Sage Timeslips, and saving and retrieving of some information is faster.	●	●	●	●	●	
Client secondary address field	On the client information dialog box, the contact info page now contains additional fields for a second address.	●	●	●	●	●	
Generating receipts for payments	You can now confirm that you received a payment from a customer by generating a payment receipt. Receipts are available for payments, reverse payments, payments to account, and payments from account.	●	●	●	●	●	

sage Timeslips

Feature and enhancement	Description	Sage Timeslips Premium	Sage Timeslips 2018	Sage Timeslips 2017	Sage Timeslips 2016	Sage Timeslips 2015	Sage Timeslips 2014
Printing watermarks on draft bills	During your typical bill cycle, you may print preview drafts of your bills, before all charges are ready to send to your clients. When printing a draft bill run, you can include watermarks on the bills to indicate they are draft bills. Draft bills cannot be approved. When you print draft bills, you will not be able to put them in proof stage, approve them, or email them. To approve the bills, you will need to show full descriptions and exclude watermarks for the bill run.	●	●	●	●	●	
TimeCapture	TSTimer has been replaced with a new application called TimeCapture. TimeCapture can track time automatically, based on the applications and windows that you access on your workstation. You can set up rules that prevent TimeCapture from tracking specific applications or windows. You can set up rules that assign Sage Timeslips names to entries based on the application or windows being tracked. You can convert all entries or specific entries into time slips for reporting and billing. TimeCapture can load automatically when you start your workstation.	●	●	●	●	●	●
Text search	The search scope fields are now grouped, making it easier to choose the areas you want. Additional fields are now searchable, such as client email address, timekeeper email addresses, and transaction check numbers. Search results are now sortable. Click on any column heading to sort the list. Click on any result to see the context below.	●	●	●	●	●	●
