**STRATEGIC REPORT  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**Introduction**

The Directors of Sage (UK) Ltd (the “Directors”) present their Strategic Report on Sage (UK) Ltd (the “Company”) for the year ended 30 September 2020. The Directors of The Sage Group plc., the ultimate parent company, set the strategy for the whole Sage group of companies (“Sage”, or the “Group”) . This is set out within the The Sage Group plc. Annual Report and Accounts for the year ended 30 September 2020 (the “FY20 Annual Report and Accounts”), which does not form part of this report. The business has a clearly defined strategy to respond to the changes taking place in technology and in the markets in which it operates in a way that leverages the strengths of the business model and delivers organic revenue and margin growth.

**Principal activity**

The principal activity of the Company is the development, sale, support and maintenance of computer software and associated services.

**Fair review of business**

The Company achieved a profit on ordinary activities before taxation of £103,090,000 (2019: £124,324,000) on a turnover of £342,389,000 (2019: £324,441,000). This delivered on the Group’s strategy for growth, primarily in cloud-based subscription revenue, of 5.5% (2019: 6.8%).

Please see the Directors' Report for consideration around the impact of COVID-19.

**Future developments**

The external commercial environment is expected to remain competitive during the next financial year. However, the Directors remain confident that the current level of performance will be maintained in the future.

**Principal risks and uncertainties**

The Global Risk Management Framework has been built to identify, evaluate, analyse, manage and mitigate those risks which threaten the successful achievement of our business strategy and objectives, within acceptable tolerances. Risks are owned and managed at a Global level and are formally reviewed on a quarterly basis.

Risk is inherent within our business activities, and the Group as a whole continues to prioritise and develop its risk management capability in recognition of this. Timely identification of risks, combined with their appropriate management and escalation, enables the Group to successfully run each business and deliver strategic change, whilst ensuring that the likelihood and/or impact associated with such risks is understood and managed within our defined risk appetite.

Currently there are eleven principal risks which are monitored and reported against at a Global level.

- Understanding Customer Needs
- Execution of Product Strategy
- Innovation
- Route to Market
- Customer Success
- Third Party Reliance
- People and Performance
- Culture
- Cyber Security & Data Privacy
- Data Strategy
- Live Services Management

---

**SAGE (UK) LTD**

---

**STRATEGIC REPORT (CONTINUED)  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

The background, management and mitigation process are disclosed in the The Sage Group plc. FY20 Annual Report and Accounts.

**Financial instruments**

## Financial risk management

The Company's operations expose it to a variety of financial risks that include credit risk and interest rate risk. The Company does not use derivative financial instruments to manage interest rate risk and as such, no hedge accounting is applied.

## Credit risk

The Company has implemented policies that require appropriate credit checks on potential customers before sales are made. The amount of exposure with any counterparty is subject to a limit.

The treasury function is managed at Global level. The credit risk on liquid funds is considered to be low, as the Audit Committee approved Global Treasury Policy restricts the value that can be invested in each approved counterparty to minimise the risk of loss. All counterparties must meet minimum credit rating requirements.

## Interest rate risk

The Company's exposure to interest rate risk is managed by the Group treasury function. The Company holds no external borrowings so is only exposed to interest rate fluctuations on intercompany borrowings, whose rates are set by the treasury function.

**Key performance indicators**

The directors of The Sage Group plc. manage and measure the Group's operations on a regional and segmental basis. For this reason, the Directors believe that analysis using key performance indicators for the Company is not necessary or appropriate for an understanding of the development, performance or position of the Company's business. The key performance indicators used by the directors of The Sage Group plc to manage and measure the performance of the Group are discussed within the FY20 Annual Report and Accounts.

**Section 172(1) Statement**

As per Section 172(1) of the Companies Act 2006 ("Section 172(1)"), a director of a company must act in the way he or she considers, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to:

- a. the likely consequences of any decision in the long term;
- b. the interests of the Company's employees;
- c. the need to foster the Company's business relationships with suppliers, customers and others;
- d. the impact of the Company's operations on the community and the environment;
- e. the desirability of the Company maintaining a reputation for high standards of business conduct; and
- f. the need to act fairly as between members of the Company.

This statement describes how the Directors have had regard to the matters set out above when performing their duty to promote the success of the Company for the benefit of its members as a whole, having regard to the interests of its stakeholders and the wider society.

Sage is the global market leader for technology that provides small and medium businesses with the visibility, flexibility and efficiency to manage finances, operations and people. Working alongside its partners, Sage is trusted by millions of customers worldwide to deliver the best cloud technology and support. Sage's years of experience mean that colleagues and partners understand how to serve its customers and communities through the good as well as the more challenging times. Sage's purpose is to transform the way people think and work so their organisations can thrive, and its vision is to become a great SaaS company for all its stakeholders.

---

**SAGE (UK) LTD**

---

**STRATEGIC REPORT (CONTINUED)  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

The Company, as part of Sage, looks to operate within and support this culture. The Directors are responsible for monitoring and upholding the culture, values, standards, ethics and reputation of the Company and Sage to ensure that their obligations to the Company's stakeholders, including its shareholders, are met. The Company follows Sage's policies and procedures, including those relating to standards of business conduct, colleagues, the community, the environment and other stakeholders. However, in considering items of business, the Company makes autonomous decisions based on each transaction's own merits, after due consideration of the long-term success of the Company, Section 172(1) factors where relevant, and the stakeholders impacted. Board meetings are held as and when required to discuss matters of business. In the year ended 30 September 2020 the Directors approved, amongst others, the following decisions: the appointment of additional directors to broaden the skills and experience of the Company's board and the approval of the Company's annual report and accounts for the year ended 30 September 2019.

As is typical for a company which is part of a large listed group, the Directors fulfil their duties partly through a governance framework determined at Group level that delegates day-to-day decision-making to Sage's management. Such delegation forms part of Sage's robust governance structure which encompasses the principles of Section 172(1) so that they ultimately become embedded within the business and everything Sage does as a Group.

The Directors recognise that Sage, including the Company, has a wide range of stakeholders that it needs to have regard to when fulfilling their duties. For each matter which comes before the Directors, stakeholders who may be affected are identified and their interests are carefully considered as part of the decision-making process. The Directors are committed to effective engagement with all stakeholders of the Company and acknowledge that, as part of Sage, engagement activities are mostly carried out at Group level. The values and behaviours upheld when engaging with stakeholders are consistent across Sage, irrespective of which member of the Group is communicating with any and all of Sage's stakeholders.

After due consideration, the Directors have determined the Company's key stakeholders to be largely consistent with those set out in the FY20 Annual Report and Accounts.

**Investors**

The Directors consider the long-term impact of corporate actions and decisions on and for the benefit of the Company's direct and indirect shareholders. The Company's ultimate parent is The Sage Group plc. and effective engagement with Sage's investors is maintained at Group level. You can read more about Sage's engagement with investors on page 95 of the FY20 Annual Report and Accounts available on Sage's website at [sage.com](http://sage.com).

**Colleagues**

The Directors recognise that colleagues are a key resource of the Company and Sage more widely. They are dedicated to creating, selling, and supporting solutions that free Sage's customers from the burden of administration so that their businesses can thrive. Engagement with the Company's employees during the year ended 30 September 2020 were integrated into Sage colleagues' engagement activities and included, amongst other things, Sage TV broadcasts, presentations of strategy, quarterly performance updates and pulse surveys. Significant focus was placed on ensuring colleagues were moved safely to a working from home environment due to the Covid-19 pandemic, that morale was being maintained and colleagues kept connected. The Directors value diversity in all its forms and endeavour to promote an inclusive culture amongst colleagues. You can read more about Sage's engagement with colleagues on pages 94 to 96 of the FY20 Annual Report and Accounts available on Sage's website at [sage.com](http://sage.com).

**Customers**

Customers are at the heart of the Company's business and the Directors recognise that fostering business relationships with them is essential to the long-term sustainable success of the Company and Sage. They are the small and medium-sized businesses which are the growth engine of the economy, and the professionals who rely on Sage to help them deliver a great service to their clients, whatever their size. As the Covid-19 pandemic developed, the impact on customers has been kept under constant review and actions were taken at Group level to support customers with payment holidays and deferrals and to provide information and support on accessing

**STRATEGIC REPORT (CONTINUED)  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

government assistance. You can read more about Sage's engagement with customers on page 97 of the FY20 Annual Report and Accounts available on Sage's website at [sage.com](http://sage.com).

**Partners**

The Directors are cognisant that partners are crucial to the Company's and Sage's success. They are an extension of Sage, representing the brand in the market and allowing Sage to scale its business. They bring Sage's solutions to life, serving customers locally and creating an ecosystem of complementary solutions and services. Sage's Partner Code of Conduct defines expectations of responsible business and behaviour and underlines Sage's strategic focus on customer needs. You can read more about Sage's engagement with partners on page 98 of the FY20 Annual Report and Accounts available on Sage's website at [sage.com](http://sage.com).

**Communities and the Environment**

The Directors recognise that Sage is committed to managing the Group's use of resources proactively to minimise environmental impact and continues to review and develop the Group's corporate sustainability strategy. Sage's culture and commitment to doing business the right way is notably demonstrated through the work of the Sage Foundation, which combines charitable giving and supporting colleague engagement with non-profit organisations delivering change. You can read more about Sage's engagement with communities and its impact on the environment on pages 98 and 99 of the FY20 Annual Report and Accounts available on Sage's website at [sage.com](http://sage.com).

In addition to the above stakeholders, it is recognised that other groups of stakeholders could also be relevant to the Company's and Sage's activities. The Directors have regard for and engage with such groups to the extent that they are affected by, and themselves affect, the operations of the Company. The Company's suppliers for instance are significant to the Company and Sage, and therefore the Company seeks to develop and foster business relationships with them to maximise value and efficiency. Sage implements a thorough supplier onboarding process and procurement lifecycle through Sage's governance model. Sage has also developed a Supplier Code of Conduct which all suppliers are required to follow, and which defines Sage's expectations of responsible business and behaviour underlying the strategic focus on customer needs, in line with the high standards of business conduct that Sage strives to promote.

This report was approved by the board and signed on its behalf.

Director

Date: 17 December 2020

---

**SAGE (UK) LTD**

---

**DIRECTORS' REPORT  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

The Directors present their report and the financial statements for the year ended 30 September 2020.

**Results and dividends**

The profit for the year, after taxation, amounted to £85,864,000 (2019 - £104,481,000).

No dividends were declared and paid during the year (2019: nil).

**Directors**

The Directors who served during the year were:

Victoria Louise Bradin

Christopher Ewen (appointed 16 March 2020)

Sabby Gill (appointed 16 March 2020, resigned 30 September 2020)

Sarah Jane Rolls (resigned 30 September 2020)

Adam Mark Richard Parker (resigned 21 August 2020)

Jacqui Cartin and Paul Struthers were appointed as Directors of the Company on 23 October 2020.

**Indemnity provisions**

As at the date of this report, indemnities (which are qualifying third party indemnity provisions under the Companies Act 2006) are in place under which the Company has agreed to indemnify the Directors of the Company and the former Directors of the Company who held office during the year ended 30 September 2020, to the extent permitted by law and by the Company's articles of association, in respect of all liabilities incurred in connection with the performance of their duties as a director of the Company or its subsidiaries. Copies of these indemnities are available for review at the registered office of the Company.

**Research and development activities**

The Directors regard the investment in research and development as integral to the continuing success of the business and ensuring our products remain a strong player in this sector. Details of total spend in research and development are included within Note 5 to the financial statements.

**Employment policy**

The Company and Sage continue to give full and fair consideration to applications for employment made by disabled persons, having regard to their respective aptitudes and abilities. This includes, where practicable, the continued employment of those who may become disabled during their employment, and the provision of training and career development and promotion opportunities, where appropriate. For further information please refer to pages 30 to 35 and 150 of the FY20 Annual Report and Accounts available on Sage's website at [sage.com](http://sage.com).

**Engagement with colleagues**

Sage has continued its policy of colleague involvement by making information available and consulting, where appropriate, with colleagues on matters of concern to them. Colleagues regularly receive updates on the financial and economic factors affecting the Group, and conversely the Group regularly seeks feedback from colleagues, including through pulse surveys. Many colleagues participate in Sage's share option schemes and a long-term Performance Share Plan. Further details of colleague engagement and how the Directors have had regard to employee interests and the effect of that regard on principal decisions taken during the year ended 30 September 2020 are provided on pages 2 to 4 of the Strategic Report of the Company as the Directors consider them to be of strategic importance with further information on pages 94 and 96 of the FY20 Annual Report and Accounts available on Sage's website at [sage.com](http://sage.com).

---

**SAGE (UK) LTD**

---

**DIRECTORS' REPORT (CONTINUED)  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**Engagement with suppliers, customers and others**

Details of engagement with stakeholders including suppliers, customers and others in a business relationship with Sage and information on how the Directors have had regard to their interests and the effect of that regard on principal decisions taken during FY20 are provided on pages 1 to 4 of the Strategic Report of the Company as the Directors consider them to be of strategic importance with further information on pages 97 to 99 of the FY20 Annual Report and Accounts available on Sage's website at [sage.com](http://sage.com).

**Greenhouse gas emissions, enenergy consumption and energy efficiency action**

Disclosure is provided on pages 46 to 51 of the FY20 Annual Report and Accounts available on Sage's website at [sage.com](http://sage.com).

**Post balance sheet events**

There have been no significant subsequent events identified at the date of this report which would impact the Company.

**Disclosure of information to the auditor**

Each of the persons who are Directors at the time when this Directors' Report is approved has confirmed that:

- so far as the Directors is aware, there is no relevant audit information of which the Company's auditor is unaware, and
- the Directors has taken all the steps that ought to have been taken as a Directors in order to be aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

**COVID-19**

Early in the COVID-19 crisis, the Group moved decisively to protect the health and wellbeing of our colleagues, and to provide continued support to our customers and partners. While the pandemic continues to create uncertainty for small and medium businesses, moderating the Group's growth in the short-term, our consistent focus on customer success has supported our performance to date.

At the same time, the pace of digital transformation among small and medium businesses is increasing, and delivering Sage Business Cloud innovations as scheduled throughout the year has positioned the Group well to support customers as they adopt new digital solutions. In FY21, the Group's planned investment in Sage Business Cloud and particularly in cloud native solutions, together with continued focus on embedding SaaS capability and culture, are expected to drive further progress on our journey to becoming a great SaaS company.

**Going concern**

The Directors have considered the going concern assumption in preparing the financial statements, which included consideration of COVID-19 impacts on the Company. The Company made a profit for the year ended 30 September 2020 of £85,864,000 and had cash and cash equivalents at 30 September 2020 of £2,461,000. The Directors remain satisfied that the going concern basis of preparation is appropriate. However, as the COVID-19 pandemic currently continues, the Company's ultimate parent, The Sage Group plc., has provided the Company a letter of support for a period of 12 months from the date of this report, to enable the Company to meet its liabilities as and when they become due, as a means to provide the Directors with further confidence that the going concern basis of preparation is appropriate.

**SAGE (UK) LTD**

---

**DIRECTORS' RESPONSIBILITIES STATEMENT  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

The Directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## SAGE (UK) LTD

---

### INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF SAGE (UK) LTD

---

#### Opinion

We have audited the financial statements of Sage (UK) Ltd for the year ended 30 September 2020 which comprise the Statement of Comprehensive Income, Balance Sheet, Statement of Changes in Equity and the related notes 1 to 25, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards including FRS 101 "Reduced Disclosure Framework (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the Company's affairs as at 30 September 2020 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

#### Other information

The other information comprises the information included in the Strategic report and Directors' report set out on pages 1 to 7, other than the financial statements and our auditor's report thereon. The Directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

#### Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and

---

**SAGE (UK) LTD**

---

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF SAGE (UK) LTD**

---

- the Strategic Report and Directors' Report have been prepared in accordance with applicable legal requirements.

**Matters on which we are required to report by exception**

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

**Responsibilities of directors**

As explained more fully in the Directors' Responsibilities Statement set out on page 8, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

**Use of our report**

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**1. General information**

Sage (UK) Ltd (the "Company") is a Company incorporated and domiciled in England, it is a private company limited by shares and the Company's registered address is North Park, Newcastle upon Tyne, NE13 9AA.

**2. Accounting policies****2.1 Basis of preparation of financial statements**

The Company is exempt by virtue of s400 of the Companies Act 2006 from the requirement to prepare group financial statements. These financial statements present information about the Company as an individual undertaking and not about its group.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101") and the UK Companies Act 2006.

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs") but makes amendments where necessary in order to comply with the Companies Act 2006 and has set out below where the FRS 101 disclosure exemptions have been taken.

The UK Companies Act requires goodwill and intangible assets to be reduced by provisions for depreciation on a systematic basis over a period chosen by the directors, its useful economic life. However, under IFRS 3 Business Combinations goodwill is not amortised and the Company does not amortise acquired intangibles relating to intellectual property rights given their indefinite life. Consequently, the Company does not amortise goodwill or indefinite lived intangible assets, but reviews them for impairment on an annual basis or whenever there are indicators of impairment. The Company is therefore invoking a 'true and fair view override' to overcome the prohibition on the non amortisation of goodwill and intangible assets in the Companies Act. Had The Company amortised goodwill and indefinite lived intangible assets, a period of 20 years would have been chosen as the useful life. The profit for the year would be £4,794,000 lower had goodwill and indefinite lived assets been amortised in the year.

The Company's ultimate parent undertaking, The Sage Group plc., includes the Company in its consolidated financial statements. The consolidated financial statements of The Sage Group plc. are prepared in accordance with International Financial Reporting Standards and are available to the public and may be obtained from the address given in note 25.

The Company proposes to continue to adopt the reduced disclosure framework of FRS 101 in its next financial statements.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

Judgements made by the Directors, in the application of these accounting policies that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 3.

**Basis of preparation**

The financial statements have been prepared on the historical cost basis. All amounts are presented in Great British Pounds (GBP) and are round to the nearest £'000.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****2.1 Basis of preparation of financial statements (continued)**

The financial statements are prepared on a going concern basis and in accordance with the Companies Act 2006.

The Directors have considered the going concern assumption in preparing the financial statements, which included consideration of COVID-19 impacts on the Company. The Company made a profit for the year ended 30 September 2020 of £85,025,000 and had cash and cash equivalents at 30 September 2020 of £2,461,000. The directors remain satisfied that the going concern basis of preparation is appropriate. However, as the COVID-19 pandemic currently continues, the Company's ultimate parent, The Sage Group plc., has provided the Company a letter of support for a period of 12 months from the date of this report, to enable the Company to meet its liabilities as and when they become due, as a means to provide the Directors with further confidence that the going concern basis of preparation is appropriate.

The principal accounting policies, which have been applied consistently throughout the year, are set out below.

**2.2 Financial reporting standard 101 - reduced disclosure exemptions**

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- The requirements in paragraph 38 in IAS 1 Presentation of Financial Statements to present comparative information in respect of:
  - a. Paragraph 79(a)(iv) of IAS 1;
  - b. Paragraph 73(e) of IAS 16 Property, Plant and Equipment; and
  - c. Paragraph 118(e) of IAS 38 Intangible Assets; and
- The requirements of paragraph 10(d), 10(f), 16, 38A-38D, 40A-40D, 111 and 134-136 of IAS 1 Presentation of Financial Statements;
- A Cash Flow Statement and related notes, as required by IAS 7 Statement of cash flows;
- The requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors;
- Disclosures in respect of transactions with wholly owned subsidiaries, as required by IAS 24 Related Party Disclosures;
- The requirements of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers.
- The requirements of paragraph 52, the second sentence of paragraph 89, and paragraphs 90, 91 and 93 of IFRS 16 Leases. The requirements of paragraph 58 of IFRS 16, provided that the disclosure of details in indebtedness relating to amounts payable after 5 years required by company law is presented separately for lease liabilities and other liabilities, and in total.
- Disclosures in respect of capital management, as required by paragraphs 134 to 136 of IAS 1 Presentation of financial statements;
- The effects of new but not yet effective IFRSs, as required by paragraphs 30 and 31 of IAS 8 Accounting policies, changes in accounting estimates and errors;
- Disclosures in respect of the compensation of Key Management Personnel, as required by paragraph 17 of IAS 24 Related Party Disclosures; and
- Disclosures of transactions with a management entity that provides key management personnel services to the Company, as required by paragraph 17 of IAS 24 Related Party Disclosures;
- The requirements of paragraphs 130(f)(ii), 130(f)(iii) 134(d)-134(f) and 135(c)-135(e) of IAS 36 Impairment of Assets.

**SAGE (UK) LTD****NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020****2. Accounting policies (continued)****2.2 Financial reporting standard 101 - reduced disclosure exemptions (continued)**

As the consolidated financial statements of The Sage Group plc. include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

- IFRS 2 Share-based Payments in respect of group settled share-based payments, as required by paragraphs 45(b) and 46 to 52; and
- Certain disclosures required by paragraphs 91 to 99 of IFRS 13 Fair Value Measurement and the disclosures required by IFRS 7 Financial Instrument Disclosures.

The Company proposes to continue to adopt the reduced disclosure framework of FRS 101 in its next financial statements.

**2.3 Impact of new international reporting standards, amendments and interpretations****IFRS 16**

The Company has applied IFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at 1 October 2019.

The following tables summarise the impacts of adopting new reporting standards on the Company's financial statements.

**Balance Sheet (extract)**

	<b>30 September 2019 As originally presented £000</b>	<b>IFRS 16 £000</b>	<b>1 October 2019 Adjusted balance £000</b>

	<b>488,627</b>	<b>(153)</b>	<b>488,474</b>

On transition to IFRS 16, the Company measured its lease liabilities at the present value of the remaining lease payments, discounted using the incremental borrowing rate (IBR). The standard permitted a choice on initial adoption of measuring lease assets either as if IFRS 16 had been applied since lease commencement but discounted using the IBR at 1 October 2019, or at an amount equal to the lease liability at 1 October 2019 adjusted for accrued or prepaid lease payments. The assets for the Company's property leases have been measured as if IFRS 16 had always been in place. Assets for other leases, mainly vehicles, have been measured at an amount equal to the lease liability.

The Company made use of the following practical expedients available when the modified retrospective approach is applied to accounting for the transition to IFRS 16:

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****2.3 Impact of new international reporting standards, amendments and interpretations (continued)**

- For vehicle leases, the Company applied a single discount rate to a portfolio of those leases with reasonably similar characteristics;
- For all leases, the Company excluded from the measurement of the right-of-use asset initial direct costs incurred when obtaining the lease; and
- The Company relied on its existing onerous lease assessments under IAS 37 to impair right-of-use assets instead of performing a new impairment assessment for those assets.

The Company reassessed its lease portfolio against the new IFRS 16 definition of a lease. This resulted in a small number of contracts for property-related arrangements such as car parking qualifying as leases because the landlord has the ability to substitute the available assets for others throughout the terms of the leases, and could benefit economically from doing so (substantive substitution rights).

Key judgements made in calculating the transition impact included determining the lease term for property leases with extension or termination options. An extension period or a period beyond a termination option were included in the lease term only if the lease was reasonably certain to be extended or not terminated. This was assessed by taking account mainly of the time remaining before the option was exercisable; any economic disadvantages or benefits to exercise such as penalties or low rent payments; and operational plans for the location. In most cases, this resulted in lease terms being assumed to end at the next break date until an operational decision to extend or terminate, unless termination would incur penalties.

The main estimate made on transition was in determining the incremental borrowing rates used as discount rates for property leases. The incremental borrowing rate is the rate of interest that the local Company would have to pay in order to borrow funds to obtain an asset of a similar value to the right-of-use asset in a similar economic environment, over a similar term and with a similar security. The incremental borrowing rate applied to each lease was determined based on the UK risk-free rate adjusted to reflect the credit risk of the Company and the lease term remaining at 1 October 2019.

**2.4 Foreign currency translation**

Monetary assets and liabilities expressed in foreign currencies are translated into sterling at rates of exchange prevailing at the balance sheet date. Transactions in foreign currencies are converted into sterling at the rate prevailing at the dates of the transactions. All differences on exchange are taken to the income statement.

**2.5 Revenue**

Revenue is measured at the fair value of the consideration received or receivable and represents amounts received or receivable for goods and services provided in the normal course of business, net of discounts, VAT and other sales-related taxes.

**Identification of performance obligations**

When the Company enters into an agreement with a customer, goods and services deliverable under the contract are identified as separate performance obligations to the extent that the customer can benefit from the goods or services on their own and that the separate goods and services are considered distinct from other goods and services in the agreement. Where individual goods and services do not meet the criteria to be identified as separate obligations they are aggregated with other goods and/or services in the agreement until a separate obligation is identified.

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****2.5 Revenue (continued)**

Typically, the products and services qualify as separate performance obligations and the portion of the contractual fee allocated to them is recognised separately. However, certain on-premise subscription contracts, which combine the delivery of on-premise software and maintenance and support services, require unbundling. Sage native cloud services usually do not require unbundling as the terms usually do not provide the customer with a right to terminate the hosting contract and take possession of the software.

When selling goods or services, in certain instances, customers pay a non-refundable contract sign-up fee when they enter into a new initial contract for a software product, and no equivalent fee is payable on subsequent renewals. The Company applies judgement in determining whether such sign-up fees provide a material right to the customer that the customer would not receive without entering into that contract. In applying this judgement, the Company considers whether the options entitle the customer to a discount that exceeds the discount that would normally be granted for the respective goods or services if they were to be sold without the option. Where this is the case, the non-refundable contract sign-up fee is treated as a separate performance obligation.

**Determination of transaction price and standalone selling prices**

The Company determines the transaction price it is entitled to in return for providing the promised obligations to the customer based on the committed contractual amounts, net of sales taxes and discounts. Contract terms generally are monthly or annual and customers either pay up-front or over the term of the related service agreement.

The transaction price is allocated between the identified obligations according to the relative standalone selling prices (SSPs) of the obligations. The SSP of each obligation in the contract is determined according to the prices that the Company would obtain by selling the same goods and/or services included in the obligation to a similar customer on a standalone basis. See "Judgements in applying accounting policies" in note 3 for details.

**Timing of recognition**

Revenue is recognised when the respective obligations in the contract are delivered to the customer and payment remains probable.

– Licences for standard on-premise software products are typically delivered by providing the customer with access to download the software. The licence period starts when such access is granted. Licence revenue is recognised at a point in time or over time depending on whether the Company delivers software with significant standalone functionality or software which is dependent on updates for ongoing functionality. The Company recognises revenue for these licences which have significant standalone functionality at the point in time when the customer has access to and thus control over the software. For licences which are dependent on updates for ongoing functionality, the Company recognises revenue based on time elapsed and thus rateably over the term of the contract. Typically, this includes our payroll and tax compliance software.

– Where the Company's performance obligation is the grant of a right to continuously access a cloud offering for a certain term, revenue is recognised based on time elapsed and thus rateably over the term.

– Maintenance and support revenue is typically recognised based on time elapsed and thus rateably over the term of the support arrangement. Under the standardised maintenance and support services, the Company's performance obligation is to stand ready to provide technical product support and unspecified updates, upgrades and enhancements on a when-and-if-available basis.

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****2.5 Revenue (continued)**

The customers simultaneously receive and consume the benefits of these services.

– Professional services and training revenue are typically recognised over time. Where the Company stands ready to provide the service (such as access to learning content), revenue is recognised based on time elapsed and thus rateably over the service period. Consumption-based services (such as separately identifiable professional services and premium support services, messaging services, and classroom training services) are recognised over time as the services are utilised, typically following the percentage-of-completion method or rateably.

– Non-refundable contract sign-up fees that qualify as separate performance obligations are recognised as revenue over the anticipated period of benefit to the customer of seven years, which takes account of the likelihood of the customer renewing the contract.

**Identification of the contract with the customer**

When the Company sells goods or services through a business partner, a key consideration is determining whether the business partner or the end user is Sage's customer. The key criteria in this determination is whether the business partner has taken control of the product. This is usually assessed based on whether the business partner has responsibility for payment and takes on the risks and rewards of the product from Sage. See "Judgements in applying accounting policies" in note 3 for details.

**Principal versus agent considerations**

When the Company has control of third-party goods or services prior to delivery to a customer, then the Company is the principal in the sale to the customer. As a principal, receipts from customers and payments to suppliers are reported on a gross basis in revenue and cost of sales. If the Company does not have control of third-party goods or services prior to transfer to a customer, then the Company is acting as an agent for the other party and revenue in respect of the relevant obligations is recognised net of any related payments to the supplier and reported revenue represents the margin earned by the Company. Whether the Company is considered to be the principal or an agent in the transaction depends on analysis by management of both the legal form and substance of the agreement between the Company and its supplier. This takes into account whether Sage bears the price, inventory and performance risks associated with the transaction.

**Practical expedients**

As the majority of contracts have a term of one year or less, any financing component is not considered when determining the transaction price.

**2.6 Leases**

The Company recognises lease assets and lease liabilities on the balance sheet for most of its leases to account for the right to use leased items and the obligation to make future lease payments. Lease liabilities are measured at the present value of future lease payments over the lease term. The lease term is determined as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if the option is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if the option is reasonably certain not to be exercised. Lease payments normally include fixed payments (including in substance fixed payments), a deduction for any lease incentives receivable and variable lease payments that depend on an index or a rate. In the event that a lease includes an exercise price for a purchase option that is reasonably certain to be exercised, or a termination penalty that is reasonably certain to be incurred, these too are included in lease payments as are any amounts expected to be paid under any residual value

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****2.6 Leases (continued)**

guarantees. Variable lease payments that do not depend on an index or a rate are not included in the lease liability but are recognised as an expense when incurred.

Lease payments are discounted using the incremental borrowing rate applicable to the lease at the lease commencement date, as the rate implicit in the lease cannot normally be readily determined. Lease assets are recognised at the amount of the lease liability, adjusted where applicable for any lease payments made or lease incentives received before commencement of the lease, direct costs incurred at the commencement of the lease and estimated restoration costs to be incurred at the end of the lease. When IFRS 16 is applied for the first time, the standard permits certain departures from these policies as practical expedients.

Right-of-use assets are presented within property, plant and equipment and depreciated on a straight-line basis over the shorter of their useful life and the lease term. Their carrying amounts are measured at cost less accumulated depreciation and impairment losses. Lease liabilities are presented within current and non-current borrowings. Over the lease term, the carrying amounts of lease liabilities are increased to reflect interest on the liability and reduced by the amount of lease payments made. A lease liability is remeasured if there is a modification, a change in the lease term or a change in lease payments. The costs of these leases are recognised in the income statement split between the depreciation of the lease asset and the interest charge on the lease liability. Depreciation is presented within selling and administrative expenses and interest charges within finance costs.

This policy applies mainly to the Company's leases for properties and vehicles. For short-term leases with a lease term of 12 months or less and leases of low value items, the Company has elected to apply the exemptions available under the standard. For these leases, rentals payable are charged to the income statement on a straight-line basis as an operating expense presented within selling and administrative expenses. Where rent payments are prepaid or accrued, their balances are reported under prepayments and accruals respectively. The low value exemption has been applied to most of the Company's leases of IT and other office equipment.

The Company leases various office and warehouse properties and vehicles, plant and equipment under non-cancellable lease agreements. Leases of properties have a range of lease terms, up to a maximum of 15 years. Other leases are generally for lease terms of 3 or 4 years. Property leases include various contractual terms, most commonly variable lease payments and termination and extension options.

**2.7 Finance income**

Interest income is recognised in profit or loss using the effective interest method.

**2.8 Finance costs**

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

**2.9 Taxation**

The taxation expense for the year represents the sum of current tax payable and deferred tax. The expense is recognised in the income statement and statement of comprehensive income according to the accounting treatment of the related transaction.

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****2.9 Taxation (continued)**

Current tax payable or receivable is based on the taxable income for the period and any adjustment in respect of prior periods. Current tax is measured at the amount expected to be recovered from or paid to the taxation authorities, calculated using tax rates that have been enacted at the end of the reporting period.

The Company and its fellow group undertakings are able to relieve their tax losses by surrendering them to other group companies, within the UK corporation tax group, where capacity to utilise these losses exists.

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences and carried forward tax credits or tax losses can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax is calculated on an undiscounted basis at the tax rates that are expected to apply in the period when the liability is settled, or the asset realised based on tax rates that have been enacted or substantively enacted at the end of the reporting period. The carrying amount of deferred income tax asset is reviewed at each balance sheet date. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities, the deferred income taxes relate to the same taxation authority and that authority permits the Company to make a single net payment.

**2.10 Investments**

Fixed asset investments are stated at cost less provision for any diminution in value. Any impairment is charged to the profit and loss account as it arises.

**2.11 Goodwill**

The Company acquires subsidiaries and subsequently hives the trade of the subsidiary up into the trade of the Company. The transfers are made at net asset value. Upon transfer there is often a shortfall between the carrying value of the investment in the financial statements of the Company and the net asset value of the subsidiary.

Goodwill represents a reallocation of this shortfall on the investment in the subsidiary from investments to goodwill in the books of the Company. The total amount carried in both goodwill and investments is in effect the same value as the previous carrying value of the investment in the subsidiary. The goodwill arising is capitalised as an intangible asset.

Goodwill is allocated to the Company's cash generating units (CGUs) that are expected to have a long-term benefit from synergies of the combination and therefore goodwill is considered to have an indefinite useful life.

Goodwill is tested for impairment annually and when circumstances indicate that it may be impaired.

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****(continued)**

Impairment is determined by assessing the recoverable amount of each CGU to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised.

Goodwill is allocated to CGUs expected to benefit from the synergies of the combination and the allocation represents the lowest level at which goodwill is monitored.

**2.12 Other intangible assets**

Intangible assets arising on business combinations are recognised initially at cost, which is their fair value at the date of acquisition. Subsequently they are carried at cost less accumulated amortisation and impairment losses. The main intangible assets recognised are intellectual property rights and computer software.

Amortisation is charged to the income statement on a straight-line basis over their estimated useful lives.

The estimated useful lives are as follows:

Intellectual property rights	Indefinite
Computer software	4 years

Other intangible assets that are acquired by the Company are stated at cost, which is the asset's purchase and any directly attributable costs of preparing the asset for its intended use, less accumulated amortisation and impairment losses if applicable. Software assets are amortised on a straight-line basis over their estimated useful lives.

**2.13 Property, plant and equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Depreciation on property, plant and equipment is provided on a straight-line basis to write down an asset to its residual value over its useful life as follows:

Freehold buildings	24 months
Plant and machinery	3 to 7 years
Motor vehicles	3 years
Fixtures and fittings	1 to 7 years
Right of use assets	Over life of lease

Freehold land is not depreciated.

An item of property, plant and equipment is reviewed for impairment whenever events indicate that its carrying value may not be recoverable.

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****2.14 Incremental costs of obtaining customer contracts**

The incremental costs of obtaining customer contracts are capitalised under IFRS 15. Contract acquisition costs primarily consist of sales commissions earned by the Company's sales force.

The amortisation periods range from five to seven years depending on the type of commission arrangement. Amortisation of the capitalised costs of obtaining customer contracts is reported within selling and administrative expenses.

**2.15 Impairment of property, plant and equipment and goodwill**

Assets that are subject to depreciation or amortisation are assessed at each balance sheet date to determine whether there is any indication that the assets are impaired. Where there is any indication that an asset may be impaired, the carrying value of the asset (or cash-generating unit to which the asset has been allocated) is tested for impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or CGU's) fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (CGUs). Non-financial assets that have been previously impaired are reviewed at each balance sheet date to assess whether there is any indication that the impairment losses recognised in prior periods may no longer exist or may have decreased.

**2.16 Inventories**

Inventories are stated at the lower of cost and net realisable value after making allowances for slow moving or obsolete items.

Cost includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition. Cost is calculated using the first-in-first-out method. During the year there were no stock write offs to cost of sales (2019: nil).

**2.17 Trade and other receivables**

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for expected credit losses.

The Company uses the term "Trade receivables" for contract receivables. These are recognised when the right to consideration is unconditional. Typically, for performance obligations satisfied over time, judgement is required in determining whether a right to consideration is unconditional. In such situations, a receivable is recognised for the transaction price of the non-cancellable portion of the contract when the Company starts satisfying the performance obligation.

When revenue recognised in respect of a customer contract exceeds amounts received or receivable from the customer a contract asset is recognised. There were no material contract assets at 30 September 2020.

The carrying amounts of trade and other receivables are reduced by allowances for expected credit losses using the simplified approach under IFRS 9. The Company uses a matrix approach to determine the allowance. The default rates applied are based on the ageing of the receivable, past experience of credit losses and forward-looking information. An allowance for a receivable's estimated lifetime expected credit losses is first recorded when the receivable is initially recognised, and subsequently adjusted to reflect changes in credit risk until the balance is collected. In the event that management considers that a receivable cannot be collected, the balance is written off.

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****2.17 Trade and other receivables (continued)**

For amounts owed by group undertakings that are trade receivables, the Company applies the simplified approach using a provision matrix as for external trade receivables. For other amounts, the Company applies IFRS 9's general approach under which a provision for 12-month expected credit losses is recognised unless the credit risk associated with the receivable is deemed to have increased significantly since its initial recognition, in which case lifetime expected credit losses are recognised.

**2.18 Trade and other payables**

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

**2.19 Provisions**

A provision is recognised only when all three of the following conditions are met:

- The Company has a present obligation (legal or constructive) as a result of a past event;
- It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- A reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the present value of the best estimate of the expenditure required to settle the present obligation at the end of the reporting period, i.e. the present value of the amount that the Company would rationally pay to settle the obligation at the balance sheet date or to transfer it to a third party.

**2.20 Deferred income**

The Company uses the term "deferred income" for a contract liability. Contract liabilities primarily reflect invoices due or payments received in advance of revenue recognition. Deferred revenue is unwound as related performance obligations are satisfied.

**2.21 Post-employment benefits**

Obligations under defined contribution schemes are recognised as an operating cost in the income statement as incurred.

**2.22 Cash and cash equivalents**

Cash and cash equivalents include cash at bank and in hand and short-term deposits with an original maturity period of three months or less. Bank overdrafts that are an integral part of the Company's cash management are included in cash and cash equivalents where they have a legal right of set-off and there is an intention to settle net, against positive cash balances, otherwise bank overdrafts are classified as borrowings.

**2.23 Financial instruments**

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****2.23 Financial instruments (continued)**

Financial assets are derecognised when the rights to receive cash flows from the asset have expired; or when the Company has transferred those rights and either has also transferred substantially all the risks and rewards of the asset or has neither transferred nor retained substantially all the risks and rewards of the asset but no longer has control of the asset. Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Financial assets and financial liabilities are initially measured at fair value.

All recognised financial assets are subsequently measured in their entirety at either fair value or amortised cost, depending on the classification of the financial assets.

**2.24 Equity**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**2.25 Share based payments**

The Sage Group plc. issues equity-settled share-based payments to certain employees. Equity-settled share-based payments are measured at fair value (excluding the effect of non-market-based vesting conditions) at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of the shares that will eventually vest allowing for the effect of non-market-based vesting conditions.

Fair value is measured using the Black-Scholes or the Monte Carlo pricing models. The expected life used in the model has been adjusted based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

The Company also provides certain employees with the ability to purchase The Sage Group plc.'s ordinary shares at a discount to the current market value at the date of the grant. The Company records an expense, based on its estimate of the discount related to shares expected to vest, on a straight-line basis over the vesting period.

At the end of each reporting period, the entity revises its estimates for the number of options expected to vest. It recognises the impact of the revision to original estimates, if any, in the profit and loss account, with a corresponding adjustment to equity.

The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

**2.26 Dividends**

Dividends are recognised through equity when approved by the Company's shareholders or on payment, whichever is earlier.

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

**2. Accounting policies (continued)****2.27 Research and development**

Research and development expenditures are recognised as an expense in the year in which they are incurred.

**2.28 Borrowing costs**

All borrowing costs are recognised in profit or loss in the year in which they are incurred.

**3. Judgements in applying accounting policies**

The following are the key judgements, assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amount of the assets and liabilities within the next year.

**Revenue recognition**

Some of the Company's revenue is generated from sales to partners rather than to end users. The key judgement is determining whether the business partner is a customer of the Group. The key criteria in this determination is whether the business partner has taken control of the product, which is usually assessed based on whether the business partner has responsibility for payment and takes on the risks and rewards of the product from Sage. Where the business partner is a customer of Sage, discounts are recognised as a deduction from revenue. Where the business partner is not a customer of Sage and their part in the sale has simply been in the form of a referral, they are remunerated in the form of a commission payment.

An additional area of judgement is the recognition and deferral of revenue on on-premise subscription offerings, for example the sale of a term licence with an annual maintenance and support contract as part of a subscription contract. In such instances, the transaction price is allocated between the constituent performance obligations on the basis of standalone selling prices (SSPs).

Judgement is required when estimating SSPs. The Group has established a hierarchy to identify the SSPs that are used to allocate the transaction price of a customer contract to the performance obligations in the contract. Where SSPs for on-premise offerings are observable and consistent across the customer base, SSP estimates are derived from pricing history. Where there are no directly observable estimates available, comparable products are utilised as a basis of assessment or residual approach is used.

Under the residual approach, the SSP for the offering is estimated to be the total transaction price less the sum of the observable SSPs of other goods or services in the contract. The Group uses this technique in particular for its on-premise subscription offerings.

**Incremental costs of obtaining customer contracts**

Judgement is required in determining the amounts to be capitalised, particularly where the commissions are based on cumulative targets. The Company capitalises such cumulative target commissions for all customer contracts that count towards the cumulative target but only if nothing other than obtaining customer contracts can contribute to achieving the cumulative target. The capitalised assets are amortised over the period during which the related revenue is recognised, which may extend beyond the initial contract term where the Company expects to benefit from future renewals as a result of incurring the costs. Typically, either the Company does not pay sales commissions for customer contract renewals or such commissions are not commensurate with the commissions paid for new contracts. Consequently, the Company amortises sales commissions paid for new customer contracts on a straight-line basis over the expected contract life including probable contract renewals.

**SAGE (UK) LTD****NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020****3. Judgments in applying accounting policies (continued)**

Judgement is required in estimating these contract lives. In exercising this judgement, the Company considers respective renewal history adjusted for indications that the renewal history is not fully indicative of future renewals.

**Recoverability of investments**

Determining whether investments are impaired required an estimate of the value-in-use or assessment of the assets and liabilities in the investment group. Where an estimate of the value-in-use is used, the key assumptions applied in the calculation relate to the future performance expectations of the business – average medium-term revenue growth, long term operating margin and long-term growth rate – as well as the discount rate to be applied in the calculation.

The carrying value of investments at 30 September 2020 was £53,607,000 (2019: £53,607,000) and no impairment loss has been recognised during the year (2019: £nil).

**Recoverability of amounts owed by group undertakings**

Amounts owed by group undertakings to which IFRS 9's general approach to recognising expected credit losses applies requires determination of whether the amounts are recoverable based on whether the other party is able to repay. This is performed by assessing the probability of default and a provision is recognised for any shortfall. Where a balance attracts interest, the amount to be repaid is discounted at the applicable interest rate.

The carrying value of amounts owed by group undertakings at 30 September 2020 was £530,924,000 (2019: £492,524,000) and no impairment loss has been recognised (2019: £nil).

**4. Revenue**

	<b>2020</b>	2019
	<b>£000</b>	£000
Revenue	<b>342,389</b>	324,441

Training	<b>36</b>	19
Marketing	<b>123</b>	134
Finance	<b>130</b>	123
IT	<b>71</b>	78
Administration	<b>83</b>	83
	<b>1,940</b>	2,005

**7. Directors' remuneration**

The Directors' aggregate remuneration in respect of qualifying services were:

	<b>2020</b>	2019
	<b>£000</b>	£000
Directors' emoluments	<b>1,594</b>	152
Company contributions to defined contribution pension schemes	<b>60</b>	27
	<b>1,654</b>	179

Retirement benefits under defined contribution schemes are accruing to two Directors of the Company.

During the year no share options were exercised (2019: nil). One director received shares in respect of long-term incentive schemes (2019: 1).

**8. Post-employment benefits**

The majority of the Company's employees are members of defined contribution schemes. The Company pays contributions into separate funds on behalf of the employee and has no further obligations to employees. The risks associated with this type of plan are assumed by the member. Contributions of £5,373,000 (2019: £4,971,000) in respect to the current year are included in the income statement. Contributions of £805,000 (2019: £725,000) are outstanding at the balance sheet date.

<i>At 30 September 2019</i>	<i>95,479</i>
Goodwill impairment	

The cash generating unit (CGU) for the Company has been assessed as the Company. The recoverable amounts of the CGU is determined as the higher of fair value less cost to sell and the value-in-use. In determining value-in-use, estimated future cash flows are discounted to their present value.

The 2021 budget and the approved plan for the three years following the current financial year form the basis for the cash flow projections for the CGU. Beyond the three year plan these projections are extrapolated using an estimated long-term growth rate. The key assumptions in the value-in-use calculations are the average medium-term revenue growth rate 6.7% (2019: 5.2%) and the long-term growth rate of net operating cash flows 2.10% (2019: 2.10%).

The Company uses a discount rate based on the Weighted Average Cost of Capital (WACC), applying UK government yield bonds and tax rates. The discount rate applied represents a post-tax rate that reflects the market assessment of the time value of money and the risks specific to the Company. The discount rate applied was 7.73% (2019: 7.88%).

The Company performed its annual test for impairment as at 30 June 2020 and the recoverable amount exceeded the carrying value.

A sensitivity analysis was also performed, and the Directors believe that no reasonably possible change in any of the key assumptions would cause the carrying value to exceed its recoverable amount.

**SAGE (UK) LTD****NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020****20. Provisions**

	Building £000	Restructuring £000	Total £000
At 1 October 2019	2,452	-	2,452
Charged to profit or loss	415	1,202	1,617
Utilised in year	(1,880)	(479)	(2,359)
<b>At 30 September 2020</b>	<b>987</b>	<b>723</b>	<b>1,710</b>

Building provisions relate to dilapidation charges and onerous lease commitments. The timing of the cash flows associated with building provisions is dependent on the timing of lease agreement termination. Of the balance outstanding at year end, £426,000 is classed as current, and £561,000 is classed as non-current. The building provision is expected to be fully utilised within 5 years.

Restructuring provisions relate to redundancy costs. The total balance outstanding at year end of £723,000 is classed as current and is expected to be fully utilised within the next financial period.

**21. Deferred income**

Of the total deferred income balance as at 1 October 2019, £63,396,000 was recognised as revenue during the year. Other than business-as-usual movements there were no significant changes in contract liability balances during the year.

The ageing profile of deferred income is as follows:

	2020 £000	2019 £000
Within 1 year	59,728	69,940
1-2 years	2,004	-
2-5 years	4,046	-
> 5 years	186	-
	<b>65,964</b>	<b>69,940</b>

**SAGE (UK) LTD****NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020****22. Ordinary shares**

	<b>2020</b>	2019
	<b>£000</b>	£000
<b>Allotted, called up and fully paid</b>		
48,685,270 (2019 - 48,685,270) Ordinary shares of £1.00 each	<b>48,685</b>	48,685
27,000,000 (2019 - 27,000,000) Preference shares of £1.00 each	<b>27,000</b>	27,000
	<b>75,685</b>	75,685

Preference shares have attached to them priority dividend and capital distribution (including winding up) rights ahead of the ordinary shares; they do not confer any voting rights or rights of redemption.

**23. Share-based payments**

The Company recognises a share-based payment expense based on an allocation from its parent company of the fair value of the awards granted, and an equivalent credit directly in equity as a capital contribution.

**The Sage Group Performance Share Plan**

Annual grants of performance shares will normally be made to executive directors and senior executives across the Group after the preliminary declaration of the annual results. Under the Performance Share Plan 2,146,687 (2019: 3,690,288) awards were made during the year.

**Awards from 2016-2018**

These performance shares are subject to a service condition and two performance conditions. Performance conditions are weighted one half on the achievement of a revenue growth target and one half on the achievement of a TSR target. The revenue growth target is subject to two underpin performance conditions relating to EPS growth and organic revenue growth.

The revenue growth target is based on the Group's compound annual recurring revenue growth. Where the Group's annual recurring revenue growth is between 8% and 10% or 10% and 12%, the extent to which the revenue performance condition is satisfied will be calculated on a straight-line pro rata basis between 10% and 40% or between 40% and 50% respectively. Notwithstanding the extent to which the revenue performance condition has been satisfied, the revenue tranche will not be released and will lapse on the Board's determination that (i) the compound growth of the Group's underlying EPS over the performance period is less than 8% per annum; or (ii) the compound growth of the Group's organic revenue over the performance period is less than 6% per annum.

The performance target relating to TSR measures share price performance against a designated comparator group. Where the Group's TSR is between median and upper quartile, the TSR vesting percentage will be calculated on a straight-line pro-rata basis between 10% and 40% and where the Group's TSR is between upper quartile and upper decile, the TSR vesting percentage will be calculated on a straight-line pro-rata basis between 40% and 50%.

The comparator group for awards granted from 2016 onwards is the companies comprised in the FTSE 100 Index at the start of the performance period, excluding financial services and extraction companies.

**Awards from 2019**

These performance shares are subject to a service condition and two performance conditions.

---

**SAGE (UK) LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 SEPTEMBER 2020**

---

Performance conditions are weighted 70% on the achievement of a revenue growth target and 30% on the achievement of a TSR target.

The revenue growth target is based on the Group's compound annualised recurring revenue growth. Where the Group's annualised recurring revenue growth is between prescribed targets ranges, the extent to which the revenue performance condition is satisfied will be calculated on a straight-line pro rata basis within a defined range.

For 2019 awards, where the Group's annualised recurring revenue growth is between 6.2% and 7.7% or 7.7% and 8.5%, the extent to which the revenue performance condition is satisfied will be calculated on a straight-line pro rata basis between 14% and 56% or between 56% and 70% respectively.

For 2020 awards, where the Group's annualised recurring revenue growth is between 5.6% and 7.0% or 7.0% and 7.7%, the extent to which the revenue performance condition is satisfied will be calculated on a straight-line pro rata basis between 14% and 56% or between 56% and 70% respectively.

The performance target relating to TSR measures share price performance against a designated comparator group. Where the Group's TSR is between median and upper quartile, the TSR vesting percentage will be calculated on a straight-line pro-rata basis between 6% and 24% and where the Group's TSR is between upper quartile and upper decile, the TSR vesting percentage will be calculated on a straight-line pro-rata basis between 24% and 30%.

The comparator group for awards granted from 2019 onwards is the companies comprised in the FTSE 100 Index at the start of the performance period, excluding financial services and extraction companies.

Awards were valued using the Monte Carlo option pricing model. Performance conditions were included in the fair value calculations, which were based on observable market prices at grant date. All options granted under performance share awards have an exercise price of nil.

#### The Sage Group Restricted Plan

The Group's Restricted Share Plan is a long-term incentive plan used in limited circumstances and usually on a one-off basis, under which contingent share awards are usually made only with service conditions. executive directors are not permitted to participate in the plan and shares are either purchased in the market or treasury shares are utilised to satisfy vesting awards. During the year 4,424,901 (2019: 5,258,827) awards were made. These awards only have service conditions and their fair values are equal to the share price on the date of grant, ranging from 657-736p.

#### The Sage Group Savings-related Share Option Plan

The Group operates an approved savings related share option scheme for UK employees. The fair value is expensed over the service period of three, five or seven years on the assumption that 5% of options will lapse over the service period as employees leave the Group. In the year, 2,924,638 (2019: 1,002,584) options were granted under the terms of the Save and Share Plan.

As the consolidated financial statements of The Sage Group plc. include the equivalent disclosures, the Company has taken the exemption under FRS 101 available in respect of certain disclosures required by IFRS 2 Share-based Payments.
