

## Support for Microsoft Windows 8 and Windows Server 2012

### For Your Information

Notice 13-B | June 7, 2013

Sage is pleased to announce compatibility and support for both Microsoft Windows 8 and Microsoft Server 2012 for the following products.

These product lines and versions are compatible with **Windows 8**:

Product	Version	Release Date
Sage 300 Construction and Real Estate Accounting & Management	13.1	June 2013*
Sage 300 Construction and Real Estate Estimating	13.1	June 2013**
Sage Estimating (SQL Server version)	13.2	February 2013***
Sage 100 Contractor—US Edition	18.3 Update	Late June 2013
Sage 100 Contractor—Canadian Edition	19.1	June 2013

These product lines and versions are compatible with **Windows Server 2012**:

Product	Version	Release Date
Sage 300 Construction and Real Estate Accounting & Management	13.1	June 2013*
Sage 300 Construction and Real Estate Estimating	13.1	June 2013**
Sage 100 Contractor—US Edition	18.3 Update	Late June 2013****
Sage 100 Contractor—Canadian Edition	19.1	June 2013****

\* Sage 300 CRE Residential Management is not compatible with either Windows 8 or Server 2012 as it uses SQL Server 2005 Express. SQL Server 2005 Express will not install on Windows 8 and Server 2012. We are exploring support for both Windows 8 and Server 2012 for a future release.

\*\* Estimating Explorer for Sage 300 CRE Estimating version 13.1 is not compatible with either Windows 8 or Server 2012 because it uses SQL Server 2005 Express. SQL Server 2005 Express will not install on Windows 8 and Server 2012. If you need to install Estimating Explorer, you will need to install it on Windows 7 / Server 2008 R2 or earlier.

\*\*\* Sage Estimating (SQL Server version) version 13.2 is not compatible with Server 2012.

\*\*\*\* Printing RTF documents thru the AMYUNI print driver for Sage 100 Contractor is not supported on Server 2012. We are awaiting a new AMYUNI driver to correct this issue. The new AMYUNI driver is currently in development.

## **Plan to Support Microsoft Office 2013**

We plan for all products to support Microsoft Office 2013 with product releases and updates in the fall of 2013. We will make specific product announcements in the coming weeks.
