

Using the Inventory/Service Management Center

Available in Sage 50 Premium Accounting and Higher

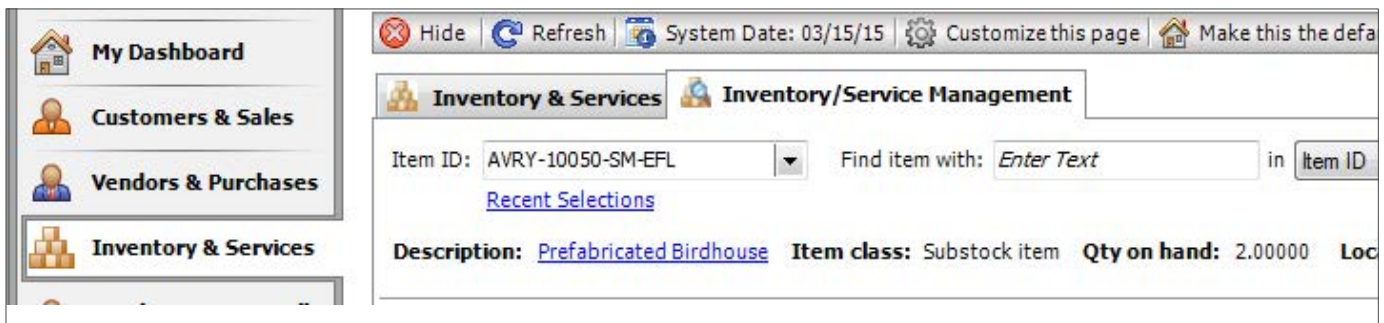

Quick Reference Guide

What is the Inventory/Service Management Center?

The Inventory/Service Management Center allows you to save time by viewing an **all-in-one snapshot** of your item information. You can create a customized view of information such as **items on backorder, inventory adjustments, assembly item relationships**, and more. It enables quick research, comparisons, and decision making.

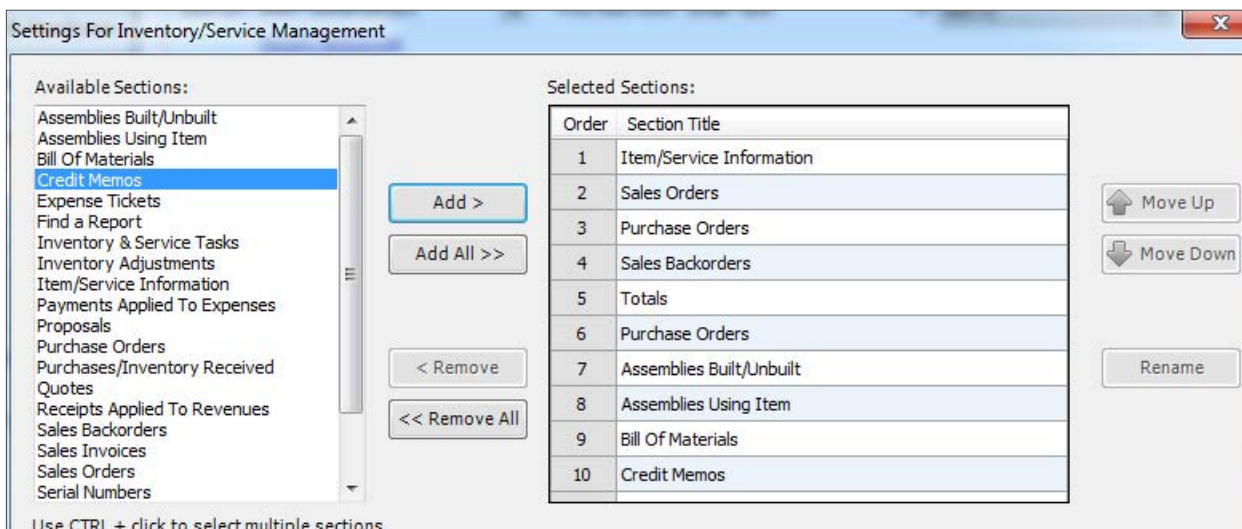

How do I get there?

Go to the **Inventory & Services Navigation center** and click the Inventory/Service Management tab.

What changes can I make?

Click **Customize this Page** to **add, remove, or rename** the sections in the Inventory/Service Management center. You can view information for your sales backorders, purchase orders, assemblies and more.

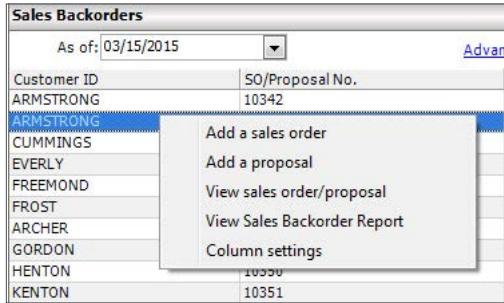

Did you know?

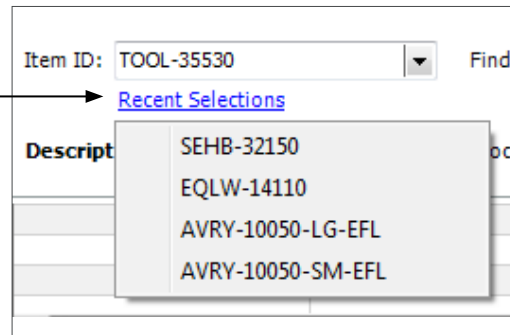

- You can quickly **hide information**. 
- You can make the Inventory/Service Management Center page appear each time you open your company.

- You can **right-click** a section for **shortcut options** such as adding a new transaction or customizing column settings.

- **Recent Selections** gives you quick access to item information you have recently viewed. This link appears below the Item ID field once you have selected at least two inventory items.
