Badges will not be issued without an ID and you will not be admitted into the venue without a badge. Badges may contain RFID and/or NFC tags, which will be used to record your attendance and participation in the Event, sessions and events and to provide you with feedback surveys following the sessions, to review and improve the Event, including for safety reasons. If you demonstrate an interest in a partner or topic, such as by visiting a booth or attending a session, Sage may share your registration information with such partner if you allow the partner to scan your badge. Information collected through badges will not be disclosed to third parties, except with partners as set forth in these terms.
